**S.A.L.T.T.**  
**Supporting All Learners with Technology Tools**  
Local countywide initiative to provide professional development in emerging technologies to help teachers support educational needs of different learners. Building principals will be contacted in the fall to submit participant names for 2014-15, one secondary and one elementary from each district.

**Blended Learning in the Classroom**  
REMC Association of Michigan

**Blended Learning in the Classroom (BLiC)**  
*More K-12 instruction is going online, with students and teachers using a vast array of Internet resources, social networks, and new education technologies. The delivery of online classes in the K-12 sector is increasing dramatically, promoting a need for training. (Online Learning in the 21st Century, Chapter 1)*  
BLiC will be offered Winter, 2015 through REMC 19West/LISD Professional Development Center.

**21Things4iPads**  
**Learn to more effectively use iPads to improve instruction and productivity!**  
This course is a blended learning program, designed to support the ISTE National Educational Technology Standards for Teachers (NETS-T). where participants learn through video tutorials, webinars, readings, and projects as well as with face-to-face support.  
Next offering is planned for Winter, 2015.

**MOODLE Online Course Management System**  
*Free, locally hosted online learning platform where teachers can create courses with collaborative tools to empower teaching and learning in a blended or 100% online environment.*
