

From the Superintendent's Desk:

Dear Madison Family,

At this time of year -- and with the 2019 commencement this weekend -- I find it valuable to look back and reflect on where we as an organization have been, where we are at currently, and where we plan to be in the very near future. With this in mind I wanted to share pages from the Madison High School Open House booklet published just a mere 60 year ago (February 22, 1959). It illustrates where the school began, who was involved with the plans (many local individuals and companies), special departments, and those who served students through various positions within the District. I thought many would enjoy a look back at plans for Madison High School 1959. Cherish the past, embrace the future!

SPECIAL DEPARTMENTS

In developing the plans for Madison High School it was necessary for the Board of Education to consider standards of the State Department of Public Instruction, of the Accrediting Department of the University of Michigan and the desires expressed by patrons of the district. In keeping with these needs a number of special purpose rooms were planned.

The commercial room is readily adaptable to instruction in shorthand, typing and bookkeeping because of the type of desks used in the room. Posture chairs with adjustable features are designed to help the student achieve maximum efficiency in typing.

The instrumental music room with practice rooms and storage makes it possible to have both practice and rehearsal areas for instrumental music and free the elementary music room for vocal music.

The general shop is designed to give the student experience in drawing, woodworking, finishing, metal working, electrical work and welding.

The home economics rooms are planned to give practical experience in home-making, cooking, sewing, managing a home, budgeting and planning.

With the recent emphasis on science it was essential to plan two rooms, one to stress natural and biological science and the other to provide for the study of physical sciences.

In considering the various interests of students it was thought that many individuals have latent artistic abilities in arts and crafts. Toward this end it was decided to provide an area where instruction might be given in this field.

The library is an innovation to Madison and is one department which needs to be developed further as the years pass, since the library serves in the dual capacity of research laboratory and cultural exchange center.

The student-center-lobby provides a comfortable waiting area for students and patrons before and after school events. It is an area where meetings may be held, where students may study or use as an informal reading room, or where school parties may be held. It can serve as a project exhibit area or secondary recreation area.

MYAC Youth Football

Recently, the Michigan High School Athletic Association (MHSAA), Michigan Interscholastic Athletic Administrators Association (MIAAAA), Michigan Athletic Trainers Society (MATS), and Michigan High School Football Coaches Association (MHSFCA) have communicated a Consensus Statement & Beliefs for Michigan Youth Football. Their goal is to establish a consistently positive and safe age-appropriate football experience for children prior to high school.

In effort to align our program with the organizations' Core Principles and Beliefs, there will be significant changes to MYAC Youth Football for the upcoming fall football season. Volunteers Needed for Faster Horses!

I am sending this to everyone as most of you are a coach or a parent of a Madison student-athlete or you want to work Faster Horses.

This is being sent out to try to clarify some misinformation that has been posted about working Faster Horses. Instead of having Fun Night this year we are working Faster Horses. Each sport is required to get 6 workers/shifts for the main tent. This main tent is center stage and is run by the Athletic Department and Girls Basketball. This requires 22-25 people per shift. 6 slots filled by the coaches of their respected sport. We sell canned beer, water and Gatorade at this tent.

The Athletic Department is also in charge of a margarita truck. Part of the proceeds will be shared with the softball and bowling teams as they will be working at it. This requires 10-11 people per shift. Margaritas are the only thing sold at this truck.

The boys' basketball and boys golf team also has a booth selling craft beer. This is run by Erik Thompson. He has workers for this tent as well as the main tent.

Coaches are to give me the names of adults that are working for their sport and what shift/day they would like to work. As of this morning I have girls basketball and bowling covered. All other sports need to fill their slots. Make sure they tell me what sport they are working for if the parent is contacting me. Requirements to be able to work:

1. 18 years or older
2. Valid Driver's Lic.

Please contact me (Kris.Isom@madisonk12.us, 517-263-0742 ext. 124) or check the MADISON WEBSITE or FACEBOOK PAGE for the correct information.

Thank you to those of you that have already stepped up and feel free to call or e-mail me with any questions.

Go Trojans!
